

South Markham Community Action Grants 2025 Guidelines Resident/Grassroots Groups Stream

Overview

The South Markham neighbourhood stands at the brink of transformation and opportunity. In recent years, residents, community partners, and other stakeholders have collaboratively developed frameworks and plans to guide this change and capitalize on emerging opportunities, all aimed at fostering stronger and more equitable communities.

The South Markham Community Action Grants (CAG) are designed to support neighbourhood-focused initiatives that advance key community-informed priorities and actions. APPENDIX B: Glossary of Terms

Term	Description
Anti-Black Racism	Engagement with Afro-Caribbean and Black communities is a crucial step toward promoting racial justice and driving systemic change to address the impacts of structural anti-Black racism. There is significant potential to support transformative approaches to safety and well-being, combat gentrification and displacement, uplift Black arts and culture, and promote food sovereignty within Black communities.
Equity	The principle of recognizing and honouring people's distinct lived experiences and circumstances, ensuring they have access to the resources and opportunities necessary to achieve equitable outcomes. Equity strives to dismantle the disparities and imbalances rooted in historical and ongoing injustices and oppression. It fosters a society where individuals' unique identities, experiences, and voices are valued, celebrated, and protected, and where everyone has the resources and social capital to thrive and prosper.
Grassroots Group	Organizations that contribute to charitable activities but do not have registered charity status with the Canada Revenue Agency (CRA). Considered also as 'Non-qualified Donees'. Grassroots group, in the context of this grant call, will be based in the South Markham community with a number of participating local residents in leadership roles.
Indigenous Reconciliation	Engagement with Indigenous communities is an essential step towards reconciliation and honouring Indigenous sovereignty. There is great potential for the South Markham area to support Indigenous communities; restore Indigenous identity within the landscape and in public spaces; connect people to arts and culture and build community resources and programs in the future.
Resident Leadership	Ensuring residents hold key project delivery, coordination, and ownership roles to implement an initiative in South Markham is critical. Resident leadership opportunities are intended to go beyond including residents as project participants or beneficiaries (e.g. – attendees, recipients) and should ensure that residents are reflected at the core of how the project gets delivered locally.
Shared Resourcing	The Community Action Grants call invites diverse funding and resource partners to align resources to advance the work of submitted projects. This could include shared space, human capital, monetary resources &/or in-kind (donated) resources.
